.2 Clinical Practice – Management of Patients with Ongoing/Chronic Conditions

Please consider the evidence found in the records and, through your interview with the physician, the appropriateness of the physician's actions in dealing with patients with chronic conditions. Conditions will usually require long-term monitoring.

Management of Patients with Ongoing/Chronic Conditions	Appropriate	Appropriate with Suggestions	Concerns	N/A
1. The patient history is				
2. Physical examinations performed with positive/negative physical findings are				
3. Requested lab tests, x-rays and other investigations are clinically indicated and				
4. Co-morbidities are evaluated and considered in the treatment plan.				
5. Management/treatment plans are periodically reviewed and				
6. Long-term medications in type, dose and duration are				
7. All medications are periodically reviewed and monitored.				
8. Discussions regarding medication side-effects are documented				
9. Follow-up of patients suffering from chronic conditions is				
10. Follow-up of abnormal test results is				
11. Requests for referrals are				
12. Narcotic addiction screening is				
13. Narcotic addiction monitoring is				
14. Medication diversion (i.e., distribution of medications to other individuals) monitoring is				
15. Narcotic prescribing is				

.2(a) Clinical Practice - Management of Specific Disease Entities

Supplemental report forms, including clinical practice guidelines relevant to those diseases to be reviewed are attached. Please include only those that apply when submitting this report. It is important to note that these guidelines are meant to be of assistance to assessors in making observations. They should not be taken as standards of any of the Atlantic Provinces Licensing Authorities.

If unable to review any of the above, please explain:

Comments (cont.):

.5 Patient Record Summary

On the following page, please record the patient charts reviewed. Each note should include a patient identifier, such as initials or chart number and date of birth, **(please – no full names)**; the date of visit, the presenting problem and your comments. Include each chart, whether or not there are concerns or suggestions. If care is appropriate or exemplary, please ensure this is indicated in the “comments” section.

Between 15 and 25 charts should be reviewed. If this is **not possible**, please comment below:

.6 Recommendation and Comments about this Assessment

Satisfactory

Further review by the committee recommended
