#### .1 Clinical Practice - New Presentations/Acute Condition Management

Please assess, based on the records, and through your interview with the physician, the appropriateness of the physician's actions in dealing with new patients or known patients presenting a new complaint or condition. New presentations will often involve the formulation of a diagnosis and recommendation(s) for treatment.

Comments (cont.):
5 Patient Record Summary
On the following page, please record the patient charts reviewed. Each note should include a patient dentifier, such as initials or chart number and date of birth, <b>(please – no full names)</b> ; the date of visit, the presenting problem and your comments. Include each chart, whether or not there are concerns or uggestions. If care is appropriate or exemplary, please ensure this is indicated in the "comments" section.
Between 15 and 25 charts should be reviewed. If this is not possible, please comment below:
